

Himmel Pharmaceutical Sales System

RELEASE NOTES

Release Notes v1.0.0

Production Release Overview

Himmel Pharmaceutical Sales Management System v1.0.0 is an enterprise-grade desktop sales management solution built for sales operation tracking, doctor/institution management, target tracking, and analytical reporting.

Highlights

- **Role-Based Access Control**: Centralized RBAC permission architecture.
- **Enterprise Dialogs**: Focus-trapped modal dialogs eliminating native focus loss.
- **Live Analytics Engine**: Dynamic analytical dashboards with zero mock data dependency.
- **Audit System**: Audit trail capturing user activities across administrative modules.
